WE DESIGN, PRINT & PROMOTE...YOU!

What can we do for you?

We are proud to have been serving local businesses from our central Hove shop for over two decades, providing years of knowledge & expertise in the design, print, signage and wrapping industry with highly qualified staff and always maintaining excellent customer service and competitive prices.

From the initial design concept to the final printed product, you will always be guided through every step of the process by a professional and passionate team. Our goal is to not only meet your expectations but to exceed them.

Here's a small selection of what we can do for you:

- **Graphic design & artwork services**
- **Shop signs, fascias & window graphics**
- **A-boards & pavement signs**
- **Banners, posters & printed rigid boards**
- **Vehicle branding, signwriting & wrapping**
- **Garment & workwear branding**
- **Stationery, business cards, flyers, leaflets, booklets, etc.**

Design

The talented and experienced team from Minuteman Press Hove is here to help with all your needs. We can import and work with supplied artwork files or create new impressive designs & visuals for whatever your project may be.

If you cannot supply a print ready file, a Design and Artwork fee may apply.

Our minimum artwork charge for small amends or basic layout is £35+VAT, and from then on, our artwork and design service is £60+VAT per hour.

Supplying Artwork to us

All artwork must have at least **3mm bleed and crop marks** (have extra background 3mm on each edge and trim marks indicating the finished trimmed size).

Raster Artwork must be 300dpi (at full size) and supplied as .pdf, .jpg, .psd, .eps, .bmp or .tiff

A **raster image** is made up of pixels, each a different colour, arranged to display an image. These pixels remain the same regardless of the size of the image so, if enlarged, it will lose quality and become blurry. It's like zooming in on a picture taken with a digital camera.

Vector Artwork must have fonts and links embedded (or outlined) and be supplied as .pdf, .ai, .eps or .svg

A **vector image** is made up of paths, each with a mathematical formula (vector) that tells the path how it is shaped and what colour it is bordered with or filled by. For this reason, they are scalable, capable to be altered in size (reduced or enlarged) almost infinitely without affecting its quality. A circle always looks like a circle, being the size of a dot or as big as a planet.

Vehicle Signwriting

At Minuteman Press we are well known for our Vehicle Signwriting & Branding services. We cater for all requirements, from the one off basic signwriting to fleet branding or full wraps.

Our creativity is only limited by your budget. The more you spend the more you get!

We can also manufacture and supply Vehicle Grade Magnets for temporary branding.

Care Of Your New Garments

Your garments are manufactured from a pre-washed and pre-shrunk fabric. The label inside the garment display the recommended temperature for UNBRANDED garments.

Once branded/printed the temperature must not exceed 40° max.

Washing incorrectly will cause print failure and garment shrinkage.

WASH AT LOW TEMPERATURE

40° Maximum!
Unless stated as lower on the label of the garment.

DO NOT TUMBLE DRY

Tumble drying has a high risk of damaging the garment or branding, causing fabric shrinkage & discolouration.

IRON AT LOW TEMPERATURE

On reverse of printed area only
or covering the print with a cloth.

50 A3 | £199_{+VAT*}

*Prices for artwork supplied. Other quantities, finishes and paper weights available on quotation.

Vehicle Magnets

Vehicle grade magnets

Our Magnetic signs make it easy to add your sign to your vehicle. Made from 2mm thick magnetic material, we print your artwork to the surface of the magnet and then apply a lamination to protect your print from scratches.

We can supply it square cut or templated to the shape desired.

From
£55_{+VAT / plm}

Caution: magnetic material is made of Iron which is prone to rust!

It must be kept dry overnight to avoid damaging the bodywork of your vehicle.

At high speeds there's a risk the wind will lift it up so not suitable for motorways (max 40mph)

LET'S BUILD YOUR BUSINESS!

You have seen some of our core products, but we can offer so much more!

Basically we can print your logo, your brand or your designs onto almost anything.

Banners

Prices On Application

Are you looking for durable bespoke printed banners for your business or event? We will provide you with the best full colour banners of any style or size and make sure your message is clear, bold, easy to read and printed to perfection.

Our **PVC Banners** are the most durable option for indoor and outdoor advertising. Almost unlimited size options to choose so you can really show yourself off. With rust resistant Brass Eyelets as standard and Hemmed Edges for extra security.

Mesh Banners are the perfect option for outdoor advertising, using 300 gsm Microperforated mesh, these are perfect for ensuring your brand stays out on a windy day. Again, these come with rust resistant Brass Eyelets as standard and a Hemmed edge.

Popular amongst our customers is our heavy duty 610gsm **Scaffold Banners**. Double sided print with blackout and loop pockets top & bottom or brass eyelets, these are a cost effective and powerful way to stand out from the crowd.
